

functionality

design
problem

The diagram features a central white box with rounded corners and a black border. Inside the box, the words "design" and "problem" are stacked vertically in a black serif font. To the left of the box, two horizontal green lines extend from the left edge, each terminating in a solid green circle that touches the box's left boundary. To the right of the box, two horizontal red lines extend from the right edge, each originating from a solid red circle that touches the box's right boundary.
