$\mathbf{d}_{1} \leq_{\mathbf{DP}} \mathbf{d}_{2} \quad \mathbf{e}_{1} \leq_{\mathbf{DP}} \mathbf{e}_{2}$ $\mathbf{d}_{1} \otimes \mathbf{e}_{1} \leq_{\mathbf{DP}} \mathbf{d}_{2} \otimes \mathbf{e}_{2}$

Lemma. Given $\mathbf{d}_1, \mathbf{d}_2 \in \operatorname{Hom}_{\mathbf{DP}}(\mathbf{P}; \mathbf{Q})$ and $\mathbf{e}_1, \mathbf{e}_2 \in \operatorname{Hom}_{\mathbf{DP}}(\mathbf{R}; \mathbf{S})$, one has:

In other words, the monoidal product preserves order on **DP**.
